Frederick's Wilmington correspondent says they have their confirmation of reports that Sherman has reached

river, North Carolina. It is said he had that stream sixty miles above Wilkesboro, N. C., previous to the last inst., thus compelling the rebel plans for effecting a junction against him and forcing him to take to the water in the vicinity of Goldsboro, at which place they expected to have a combination of forces in their favor, which would have resulted in a decisive defeat. The Wilmington Journal, in its issue just published, contains the following account of the occupation of the town by the rebels:

THURSDAY, MARCH 9, 1865.

NOTICE TO CITY SUBSCRIBERS.

The Daily Democrat, delivered by carriers throughout the city, is at the rate of twenty-five cents per week, including the Sunday paper.

OUR AGENTS.—Messrs. North & Bro., Lexington, and Mr. J. D. Pollard, Frankfort, are our agents. The Daily Democrat can be had at either of the above news depots every morning.

CITY NEWS.

\$300 BOUNTY

Offered by the City of Louisville in Addition to the United States Bounty.

The city of Louisville will pay a bounty of \$300 to each volunteer, who may hereafter be enlisted in the United States military service, when the certificate is presented showing that a credit has been given to the city of Louisville for the person enlisted or mustered in as above. WM. KAY, Mayor.

We will supply substitutes promptly. Principals should call at once, before prices advance farther.

Notice to Country Subscribers.

In a short time we shall adopt a new system of mailing the Daily Democrat to the country. The name of each subscriber will be printed, and the time for which payment is made will be marked on the printed slip. Thus each subscriber will, as often as he receives the paper, see the condition of his account, the time for which he has paid being printed on the slip containing the address. This constant notification will remind all subscribers of the condition of their accounts, and we trust they will, in all cases, remit in time to prevent their names from being struck from the list. No paper will be continued beyond the date paid for.

There are a number of our patrons in arrears. To all such we shall forward a statement of their accounts, and trust they will remit forthwith, as under the new system of mailing no paper will be forwarded to any one in arrears. We trust our friends will heed this notice and promptly forward their subscriptions.

AN ATTRACTION.—Almost everybody is aware of the power and quickness of electricity when developed in a storm, and newly everywhere is acquainted with the usefulness of that agent in the telegraph, medical and chemical decompositions—the first electricity being developed by electro magnets, the second by friction, and the third by galvanic batteries; yet much remains to be discovered, as electricity can be applied to many more useful purposes. It has already been tried to substitute steam on railroads and steamboats in France and England, and other countries, and this idea being yet in its infancy the genius of man will surely arrive at this cherished object. Until now, powerful electro magnets have been adopted, and electricity has been procured by galvanic batteries. We saw yesterday, in the show case of Mr. E. Richter, on Third street, between Market and Jefferson streets, two diminutive engines of different patterns, that worked on the above principle. They prove quite an attraction to passers-by.

POLICE PROCEEDINGS.—Wednesday, March 8, Edward Smith and Christ Smith, burglariously entering the store of J. N. Simonson; discharged.

John Kinkaid, drunk and disorderly conduct; fined \$5.

Wm. Watkins, drunk and disorderly, and shooting at John Lynch, with intent to kill, but without wounding; continued until Thursday.

Fanny Ames, drunk and disorderly conduct; fined \$5.

John Yeager, drunk and disorderly conduct; bail in \$100 for three months.

SENT HERE FOR TRIAL.—Capt. A. C. Morris, company I, Eleventh Kentucky cavalry, who killed a man in or near Shelbyville, one year ago last September, was sent here yesterday from Lexington, Ky., to be tried by a military court-martial. It will be remembered that he made his escape from the military prison in this city but was afterwards recaptured.

John E. Warfield, company I, Forty-sixth Indiana, was also brought down a prisoner to be tried by a military commission. We did not learn upon what charges he will be tried.

KILLING OF MR. STEIN.—The remains of Mr. Stein, of this city, who was shot and killed in Covington a few days since, will arrive this morning and be buried this afternoon. Stein was laboring under a fit of insanity at the time he was shot and killed. It was a negro soldier who did it—two balls entering his breast, killing him instantly.

Miss St. Clair, who lectures on subjects connected with the education of young ladies, will, as by advertisement, lecture in a few days on "Marriage No Lottery."

As this lady has for the past three years been accustomed to public speaking in this and foreign countries, she will doubtless give an entertaining and instructive discourse.

A. WARD.—There is a gentleman named A. Ward traveling over the country, who has "a show," and can "speak a piece" to perfection. He is not good looking, but he is funny, and that is better than beauty. He will appear at the Masonic Temple, on Monday night. He has been to see Brigham Young, and will tell you all about it.

SCHOOL FAIR.—The fair last night was very well attended. We hope it will be crowded to-night, and every night during the week. The ladies are endeavoring to make it as interesting as possible. Let all who would contribute to a good cause go to the School Fair, and spend an evening.

Fourteen rebel commissioned and sixty-four non-commissioned officers and privates arrived from Nashville yesterday morning.

Our young friend, Al. Bourlier, "struck the nail on his head, on Fifth street, yesterday."

DEPARTURES.—Eleven deserters arrived from Cincinnati, yesterday, and six from Cairo.

"Ketchum" has our thanks for favors. May his hair never grow gray.

A lot of government mules arrived here yesterday.

Mr. S. B. McGill has a card in our paper to-day.

City Council—The Portland Railroad Question—Meeting To-Night.

In accordance with the call of the Mayor, the General Council met at 7 1/2 o'clock last evening. To-day being the end of the fiscal year, the meeting was called for the purpose of appropriating money to pay the expenses of the past year, which appropriation was made. Right here we would state that the finances of our city are in a most excellent condition, there being a surplus of over \$25,000 in the treasury above all expenses.

A message was received from the Mayor inclosing a contract proposed between the Louisville and Portland Railroad and the city for the extension of their road as far as West 2nd street. The contract is somewhat similar to the contract now existing between the Louisville City Railway Company and the city. It is proposed to run the road double track from the corner of Thirteenth and Main to Thirteenth and Market, and thence along Market street to Wenzel's. The Mayor, in his message, recommended the passage of an ordinance allowing the privilege asked. In the Board of Aldermen the grant was allowed by a vote of five to two. In the lower Board it was amended so as to read "provided that said company shall have its property taxed in the same manner and to the same extent as the Louisville City Railway Company." In this Board the matter was referred to a special committee, consisting of Messrs. Smith, Armstrong, Spaulding, Orrell and Robinson.

At the last meeting of the Council an ordinance passed the lower Board abolishing the office of tax collectors and creating in their place the office of Tax Receiver. In the upper Board this ordinance was defeated last night by a tie vote.

The Council will meet again to-night, when an ordinance will be introduced increasing the police force and reforming the same. The Council will also, no doubt, appoint a day for the election of police. These are matters of some importance and a full attendance is desired.

Amusements.

LOUISVILLE THEATRE.—The charming actress and dancing queen, Miss Lou Hudson, who again graced last night with a crowded house, in the play "Mazepa" passed off very pleasantly. This play Miss Lou Hudson is given up to be with an equal. The piece will be repeated to-night.

WOOD'S THEATRE.—Last night the great drama of "Fanny" was produced for the first time. Miss Maggie Mitchell appearing as Fanny. The piece is full of thrilling incidents, and furnishes a fine scope for the display of Miss Maggie's talents. This is the last night but two of Miss Maggie Mitchell in our city, and at this great place to be repeated, we look for another crowded house.

VARIETIES.—The Varieties was visited last night by another large audience who were delighted and came away with a good deal of what you forgot the war, draft, hard times and your sweetheart, or, if you don't wish to forget her, take her along with you. The Minstrels are playing to good houses now, and play well too.

STARTED OUT.—A refugee who had been employed on a farm a few miles from the city went off with his employer's fine horse, saddle and bridle night before last. He was joined by another chapp, both of whom it is supposed have gone in the guerrilla business.

All the rivers and creeks south of Nashville are filling, and the bridges on the railroads are being repaired of the damages sustained by the floods.

Trains on the Ohio and Mississippi railroad have been stopped on account of high water. Though they missed connection yesterday.

Yesterday was an ugly, wet, sultry, disagreeable day. Business was dull, and news of importance scarce. Military matters were dull.

We understand that the guerrillas call to the negro wires above Frankfort and Pleasantville night before last.

The One Hundred and Fifty-first Indiana, a new regiment, left for Nashville yesterday.

Remember the big meeting at the courthouse on Friday night.

(For the Louisville Democrat.)

Messrs. Editors: I would not trouble you and the public further, but for the misrepresentation made by German & Bro. in their card in the city papers, on the morning of the 8th inst. In that card the Messrs. G. & Bro. make use of this language:

"That we have not been acting unlawfully in lithographing or selling the labels, has been decided by the Chancellor of the Louisville Chancery Court, in a suit in said court, which Mr. McGill brought against us to enjoin us; but, on hearing the case, the Chancellor refused to grant the injunction, and dismissed McGill's petition, with costs."

It is a rule of evidence in the courts, I believe, that when a witness knowingly speaks falsely as to a material fact, he is not to be believed at all. Now, the above statement of German & Bro. is utterly false, for the reason that it is intended to convey the idea that my application to the Chancellor for an injunction was refused, whereas it was granted, but was not perpetuated. They also wish to convey the idea that the case was heard upon its merits by the Chancellor, whereas the truth is that, upon a preliminary motion in the case, the Judge came to the conclusion that the Chancery Court had no jurisdiction in the matter, and made this order: "The case is dismissed for want of jurisdiction." Does this look like the idea conveyed in the following words: "That we have not been acting unlawfully in lithographing or selling the labels, has been decided by the Chancellor of the Louisville Chancery Court?"

The other statements of this card are about upon a par with this. It requires the face of men who have dealt with the property of others as German & Bro. have with mine to enter the public prints with a card so full of untruth as theirs. S. B. MCGILL.

(For the Louisville Democrat.)

CANVILLE, KY., March 3, 1865.

DEAR SIR: We see that you have copied from the Cairo Democrat a statement that the steamer Victory, on the 18th of February, was fired into by a party of guerrillas at Crittenden's coal mines, thirty miles above Smithland, on the Ohio river.

Now, Sir, the above report is a falsehood. The mines above referred to are not Crittenden's, but Truette's. There never was a steamer fired into in this vicinity. There have not been any guerrillas in Canville or its neighborhood since September, 1863.

The inhabitants of Canville and its neighborhood for miles around are peaceful, law-abiding citizens. At the coal mines the flag has been flying since November, and when it is blown down it is blown down by the wind. It is the only place, south of the Ohio, between Louisville and New Orleans, where it does fly unguarded by soldiers.

We hope you will give this place in your paper and render to our neighborhood the credit it deserves for its morality and loyalty. Respectfully yours, R. H. ARMSTRONG, Counselman Seventh Ward.

Uniform Police.

Messrs. Editors of the Louisville Democrat: As the author of the proposed ordinance in reference to uniforming the police of this city, I wish to contradict any report that may have gained currency "that any of the present candidates for the Mayor's office" has been consulted as to its propriety, "or favor its adoption," but, so far as I have any knowledge on the subject, I all appear "I—and that's what's the matter. Yours, J. M. ARMSTRONG, Counselman Seventh Ward.

RECRUITS.—Fifty-five recruits arrived here yesterday from Columbus, Ohio.

What the Illustrious Abernethy Said.

"Well, sir, what's the matter?" said Abernethy, the great English Surgeon, to a cadaverous looking patient, who had called to consult him. "Oh, nothing serious," was the reply, "my stomach and liver are out of order, that's all."

"I tell you, sir, that when these organs are out of order, as you call it, there is not a square inch of the body that is in a healthy condition." Nothing can be more true, and therefore it is of the very highest importance to keep the stomach and liver in a vigorous condition. If one is weak and the other irregular in its action, one and control them with HOSTETTER'S CELEBRATED STOMACH BITTERS—the most genial vegetable restorative and alternative that has ever been administered as a cure for Dyspepsia and Liver Disease. It is recommended by distinguished surgeons and physicians of the United States Army, by officers of the Army and Navy, by our first agents, by eminent clergymen, in fact, by thousands of the most intelligent of every class, as an unequalled protective against epidemic and malarious diseases, and as a perfectly innocuous, but at the same time powerful, invigorant and alternative.
